1. This application is objected to under 37 CFR 1.172(a) as the assignee has not established its ownership interest in the patent for which reissue is being requested. An assignee must establish its ownership interest in order to support the consent to a reissue application required by 37 CFR 1.172(a). The assignee's ownership interest is established by:

(a) filing in the reissue application evidence of a chain of title from the original owner to the assignee, or

(b) specifying in the record of the reissue application where such evidence is recorded in the Office (e.g., reel and frame number, etc.).

The submission with respect to (a) and (b) to establish ownership must be signed by a party authorized to act on behalf of the assignee. See MPEP § 1410.01.

An appropriate paper satisfying the requirements of 37 CFR 3.73 must be submitted in reply to this Office action.

The assignment of the invention to TELXON CORPORATION is incomplete. The assignment only identifies the application by its title. Since many applications have the same title, the Serial Number and filing date of the application are required.

In addition, there is no evidence that the person who signed the CONSENT OF ASSIGNEE TO REISSUE APPLICATION had the authority to act on behalf of the assignee.

2. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178. The statement in paper no. 11 that the "original letters patent are possibly lost" is insufficient.
3. The error described in the declaration is not specific enough. The actual claimed language changed must be described.
4. The reissue oath/declaration filed with this application is defective because it fails to contain a statement that all errors which are being corrected in the reissue application up to the time of filing of the oath/declaration arose without any deceptive intention on the part of the applicant. See 37 CFR 1.175 and MPEP § 1414.
5. The amendments are not in conformance with 37 CFR 1.173. Clean, unamended original claims should not be resubmitted. New claims 23-46 should be underlined in their entirety with no bracketing. An explanation of the support in the disclosure for all changes (including the addition of new claims) must be provided.
6. This application is in condition for allowance except for the following formal matters: those noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

7. If there are any questions concerning this action, please contact William Cuchlinski at 9703) 308-3873.
